

Roger big black CH/EU / R-018

22.03.2022

Slogan

Sensitively achieves cleaner air

3 most important features

1. Removes 99.9% of SARS-CoV-2 which causes COVID-19*
 2. Washable pre-filter – integrated hygiene function
 3. Air quality monitored and controlled via app
-

Description

Air purifier Roger big provides clean air in conference rooms, open-plan offices and large spaces of up to 104 m². The mobile indoor air purifier measures the air quality using his two sensors. So pollutants are detected immediately and removed by the Dual Filter™. If the air quality deteriorates, the air quality indicator changes colour. If the automatic mode is activated, the level of performance of the purifier is adjusted automatically. Roger big purifies the air efficiently with his two Dual Filters™. He removes particles such as fine dust, allergens, pollen, bacteria and viruses from the air as well as gases, unpleasant odours and volatile organic compounds (VOCs) with the same level of efficiency. Roger big's impressive features include a timer, night mode, transportation wheels and WiFi – monitoring the air quality and controlling all his functions are carried out via an app.

Technical Data

System :	Air purifier
Output (Up to):	736 CADR
Room Size (Up to) :	
Output Levels :	5
Power Consumption :	4 – 90 W
Dimensions :	420 x 520 x 340 mm
Weight :	10.5 kg
Water Tank Size :	
Sound Level :	28-58 dB(A)
Accessories including :	Textile pre-filter black, Dual Filter™ (H12 HEPA & activated carbon)
Accessories optional :	Dual Filter™ (H14 HEPA & activated carbon)
RRP :	649 CHF / 619 € / 669 USD

Article Number and EAN-Code

R-018 / 7630850300505
